EDUCATION

Bachelor of Science in Computer Science, 2022-2024

Eastern Michigan University; Ypsilanti, MI

COURSEWORK

Discrete Mathematics

Data Structures and Algorithms

Neural Networks & Deep Learning

Professional Team Programming

Big Data I & II

Cyber Security

Computer Organization

Software Engineering Solutions

PROJECTS

- Developed an Android application using Android Studio, Firestore, and Git, designed for fitness enthusiasts. The app allows users to register, log exercises, and send notifications to friends who can interact with their posts.
- Developed a POS system/GUI for a fictional restaurant using Eclipse, MySQL, and Visual Studio. Enabled order management that facilitated seamless order creation, modification, and fulfillment.

EMPLOYMENT

Server/Bartender/Manager: Conor O'Neill's; Ann Arbor, MI April 2012 – July 2017, May 2023 - Present

- Manage schedule for over 50 front of house positions, including full and part time staff
- Ensure staff are attentive to customers' needs and wants while managing the floor
- Manage customer experience, including difficult clientele, to make the customer experience successful
- Responsible for weekly drink inventory, work closely with regional drink representatives
- Ensure correct food storage, handling, and preparation after being trained in food safety

Teaching Assistant (TA): Eastern Michigan University, Ypsilanti, MI September 2023 – December 2023
