EDUCATION

Bachelor of Science in Computer Science, Cum Laude, 2024

Eastern Michigan University; Ypsilanti, MI

COURSEWORK

Discrete Mathematics	Data Structures and Algorithms
Neural Networks & Deep Learning	Professional Team Programming
Big Data I & II	Software Engineering Solutions

PROJECTS

Developed Android application using Android Studio, Firestore, and Git, designed for fitness enthusiasts. The app allows users to register, log exercises, and send notifications to friends who can interact with their posts.

Developed a POS system/GUI for a fictional restaurant using Eclipse, MySQL, and Visual Studio. Enabled order management that facilitated seamless order creation, modification, and fulfillment.
